

Airless Spray Guns

Storm Machinery's range of airless spray guns can be used for a variety of industrial, commercial and fine spray applications .

TriTech

TriTech T360 - Superior Product

strictly superior

245 BAR

Max working pressure: 3600 psi (245 bar)

The T360 is a high quality spray gun that is lightweight and balanced. Made from quality aluminium and stainless steel it has proven to be strong, durable and reliable.

Advantages

Positive shut -off	Reduced hand fatigue
Superior design	1/4NPT inlet ports
In-hand filter (easy access)	Light weight
Built-in hose swivel	2 or 4 finger trigger
Lockable trigger	Wide range of spray tips

TriTech T720 - Superior Product

Max working pressure: 7200 psi (500 bar)

The T720 is a high quality spray gun that is highly corrosive resistant. All internal parts are made from stainless steel and tungsten carbide, ensuring maximum life duty. A large, one-hole diffuser provides increased fluid flow when spraying high viscosity coatings.

Advantages

Positive shut -off	Reduced hand fatigue
Superior design	1/4NPT inlet ports
In-hand filter (easy access)	Light weight
Built-in hose swivel	2 or 4 finger trigger
Lockable trigger	Wide range of spray tips
No adjustment - calibrated spring and valve	

500 BAR

G530 Gold Airless Spray Gun

Max working pressure: 510 bar

Front entry!

The G530 Gold Airless Spray Gun is a high quality, front entry spray gun. Because the G530 has no gun filter and is easy to clean it is ideal for spraying high viscosity coatings including glass flakes.

* All airless spray guns have top hook for storage

510 BAR

Contractor's Airless Spray Tips

Max working pressure: 3600 psi (245 bar)

Tritech's series of contractors spray tips includes 122 different fan pattern / orifice size combinations.

Patented seal alignment for quick and accurate installation
Mega-hard tungsten carbide for long duty life

Ultra Finish Airless Spray Tips

Max working pressure: 5000 psi (345 bar)

Tritech's series of ultra finish tips includes 25 different fan width and orifice combinations. Ultra finish tips are designed with a unique, double-orifice, which atomises the coating twice - each time finer than the first!

Hand-tight guard with large knurls for a sure grip
Tip size tag for quick and accurate size identification

Road Marking Sharp Liner Airless Spray Tips

Max working pressure: 3600 psi (245 bar)

Tritech's series of road marking sharp liner tips are designed for line striping roads, parking lots, airports, athletic fields and interior floors of industrial warehouses. The spray pattern is designed to give sharp distinct lines with minimal overspray

Tip Guards

Standard max working pressure:
3600 psi (245 bar)

Stainless steel max working pressure:
7200 psi (500 bar)

Hassle free setup!
Pointed tip fits into seal which is directly fitted to the tip guard

strictly superior

Cotton Braided Airless Hose
Ideal for electric and petrol spray pumps.

Steel Braided Airless Hose
Ideal for pneumatic spray pumps.
