

Suction Cabinets

Suction cabinets are ideal for non-aggressive blasting on brass, aluminum and glass.

Applications include mould cleaning, etching, frosting, engraving and crack detection, DIY and hobby crafts.

SM800S & SM1000S

The SM1000S and SM800S suction cabinets work on a pneumatic principle and provide a means of enclosed blasting for smaller industrial as well as commercial parts. The SM1000S and SM800S work with free-standing, heavy-duty, single dust extractors.

Controlled space

Ideal for blasting small components in an enclosed area with extractors for dust control.

Easy to use

Fitted with two doors for easy loading and internal fluorescent lights for visibility.

Durable

Robust design and build ensure durability as well as reliability.

Non-aggressive

Suitable for a variety of commercial as well as industrial applications.

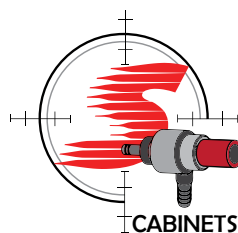

SM1000S

Single Extractor

Length	400mm
Depth	450mm
Height	1210mm
Power	220V
Filters	4
Weight	62kg

strictly superior

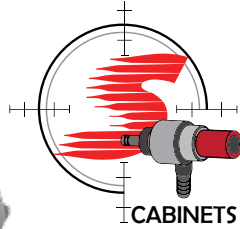

SM800S

	SM1000S	SM800S
Length	1000mm	800mm
Depth	850mm	650mm
Height	1850mm	1720mm
Internal height	860mm	710mm
Air consumption	28CFM at 6bar	18CFM at 6bar
	785LPM	500LPM
Light	220V	220V

SM800C & SM550C

SM800C

CABINETS

The SM800C and SM550C provide an alternative means for blasting small DIY applications. With its air-tight design, no extractor is necessary, making the units more versatile and portable.

	SM800C	SM550C
Length	800mm	600mm
Depth	550mm	450mm
Overall height	1520mm	800mm
Internal height	510mm	500mm
Air consumption	18CFM at 6bar	18CFM at 6bar
	504LPM	504LPM
Light	220V	220V
Weight	58kg	31kg

DIY applications

Suitable for small, DIY applications and hobbies.

strictly superior

Versatile

Can be used in a variety of places (including desktops) because of small size.

Air-tight design

No extractor needed!
Air-tight design forces dust into a separate filter bag.

DIY Applications!

SM550C

Spares & Accessories

Storm Machinery takes pride in servicing its products and has a wide range of spares, accessories and replacement parts available.
