

## Spray Painting PPE

### Storm Painter's Helmet

Lightweight, air-fed painting helmet

- Outer removable visor for overspray
- Adjustable main visor
- Air-fed helmet protects the operator from overspray
- Protection for face, chin and neck
- Lightweight and comfortable
- Positive air displacement behind the main visor prevents overspray from entering
- Air regulator controls the amount of air being fed to the helmet
- Can be worn with a spray sock for added protection
- Each helmet comes complete with 10 additional visors

### Spray Sock

Expendable, cotton spray mask

- Protects head while spraying
- Three-way stretch
- Cool, comfortable cotton

### Paint Suit

Expendable, lightweight painting suit

- Lightweight, durable & comfortable
- Elastic wrists & legs for added comfort
- Hood offers additional protection for head & neck
